ASHI TRAINING CENTER

Proper Child Restraints in Emergency Vehicles

Figuring out the safest way to transport a child in an ambulance can sometimes be tricky. North Carolina EMSC along with the North Carolina Office of EMS has created an on-line training program: "Here to help: Proper Child Restraints in Emergency Vehicles."

Available at: <http://www.ncems.org/pediatric-transport>

Safe Sleep Practices

AAP updated the guidelines for Safe Sleep Practices and SIDS reduction. Some highlights include recommendations for breastfeeding infants, ensure that infants are properly immunized and remove any crib bumper pads from cribs. For more information regarding safe sleep practices see: <http://www.aap.org/pressroom/sids.pdf>
